Consumer Notes:

Hereí s something that hasnít happened in a while ... a one page monthly listing!

There are, however, a number of interesting things becoming available this month.

Toshinden, a hotly anticipated release from USMC arrives as does Venus 5. Venus 5,

if you didnít already know, is a thinly veiled adult version of a certain TV series

where the principals all wander around in sailor costumes. Speaking of which, thereís

a new Sailor Moon set this month, and weíre sure itíll do at least as well as the

last volumes ... maybe better as the show appears to have been renewed on US

television. Finally, the Street Fighter series continues, there will be a total of

ten volumes when the series is complete.

JEFFíS PICK(S) OF THE MONTH

Battle Arena Toshinden looks great, and there are a number of new production

cels available from Iria and Genocyber. Still, judging by the art that Iíve

seen so far, Iíd probably opt for the anime styled Ultra Vixen Rom. While this

appears to be a VERY adult rom, the central character looks a WHOLE LOT like

Catty from Gall Force. My only qualms about it are that itís a bit expensive

and the game has not yet been demonstrated outside the company.
